

HeliCoil® Aftermarket Products Sav-A-Thread® HT M14 x 1.25 Spark Plug Thread Repair

The HeliCoil® Sav-A-Thread® HT kit is a professional spark plug thread repair kit that is typically used in 4.6 and 5.4 liter Ford® engines.

HeliCoil® is the original innovator of spark plug port repair kits. The Sav-A-Thread® HT product offers the highest quality and most durable repair available to permanently restore stripped spark plug hole threads.

The growing number of do-it-yourselfers and the need for quick, easy, on-the-spot repairs makes Sav-A-Thread a must for every store and shop.

It is recommended that the head be removed before installation to ensure chips do not enter the cylinder.

This Sav-A-Thread Kit contains:

- Piloted reamer tap (1)
- Steel installation tool (1)
- Expanding tool (1)
- Inserts (12)

Order Part Number 5396-14.

FEATURES & BENEFITS:

- Designed for “Half-Thread” (HT) spark plug applications in 4.6 and 5.4 liter engines
- Allows access to deep ports
- Positive mechanical locking feature ensures insert stability
- Utilizing the piloted reamer tap, alignment is maintained and pre-drilling is not required

Newly designed insert contains Half-Thread
