## When Welds Need to be Perfect, Trust Nelson®

For over 80 years, Nelson® the stud welding innovator, has been trusted by engineers & builders in critical joining applications in numerous industries from bridge construction to auto manufacturing. Innovation is key and we continue to advance our product technology in battery units, diesel stud welders, portable arc chargers, CD, Gas Arc and NelWeld® Welders.

World-class service and support is also a priority and our goal is to support our customers well beyond the purchase of our welding systems, with:

- On-site Field Service & Support
- Preventative Maintenance, Calibration, Repairs & Refurbishment
- Custom Welding Application Development
- Equipment Rental & Leasing Options

**NELSON**®

## Comprehensive Flexible Rental Options That Save Time & Money

Whether you need a welder for a construction project, or you need to rotate equipment for maintenance and repair, Nelson® can accommodate with flexible rental offerings. Nelson offers electric, battery, gas, and diesel-powered equipment as well as solutions for thin sheet metal, precise aluminum, heavy-duty stud welding needs, and more.

Above and beyond other stud welding rental options, the Nelson team includes fastening and equipment experts that can assist in identifying the right system and fasteners for your application. Our experts can provide service and training to support your team or recommend rent or lease-to-own options depending on whether your needs are short or long-term.

### Why Rent a Nelson® Stud Welding System?

- Scale-up for short term projects & spikes in demand requiring immediate increases in equipment
- Access to reliable & expertly maintained equipment ensures safety & efficiency
- Reduce stocking and storage costs for equipment and accessories
- Reduce initial capital costs necessary for equipment purchases
