BLC40PB-35

Cordless Lockbolt Tool

Features

Cordless lockbolt tool maximizes placing capability, ensures optimum productivity, and reduces installation cost

Versatile tool: Installs both breakstem and non-breakstem structural lockbolt fasteners

Easy to use: Tool-free anvil and nose housing removal and assembly, quick-slide battery installation, push-button for easy removal of the battery from the tool, ergonomic soft grip handle for operator comfort, low-force single trigger system

Enhanced tool life: Up to 4 times more life versus competition

Intuitive interface: Select “Pull-to-Stroke” or “Pull-to-Force” mode by toggling a switch. Change setting values from 00-99 for force or stroke with 2 rotary switches

One tool for all: Compatible with nose assemblies of AV®5, 7287 and 73200 tools

Competitively priced: Equipped with essential features and utilizes a simple design to cater to site usage

Benefits of Using the BLC40PB-35 Tool:

- An alternative to hydraulic tool solutions that require a generator, hydraulic pump unit, and long hoses with a handheld battery solution
- Improves accessibility to narrower spaces
- Maximizes output and reduces operator fatigue thanks to its lightweight, ergonomic design
- Prevents unscheduled downtime, combining the benefits of long-lasting DEWALT® lithium-ion battery with industry’s fastest charging time
- Decreases infrastructure complexity, lowering LCOE (Levelized Cost of Energy)
- Delivers permanent and vibration-resistant assembly when used with Avdel® fasteners
- One-stop solution: Simplifies inventory management, service, and support by leveraging the single-source tool and fastener solution offering

Specifications

Dimensions: L361 mm x H284 mm x W86 mm (without nose assembly and battery)

Battery: DEWALT® 18V DC  (20V Max) Li-Ion technology

Charger: DEWALT® Fast Charger

Tool Stroke: 40mm

Pull Force: 35kN

Weight: 4.7kg (without nose assembly and battery)

Nose Equipment: Please refer manual for part codes

Placing Capability

Avbolt®	5/16"
Avbolt® Eco	5/16" (Available Soon)
Avseal® 02964 series	14mm
Avseal® 02964 series	16mm
Interlock®	3/8"
Monobolt®	3/8"

Compatible with AV®5, 7287 and 73200 nose assemblies

Industries & Applications

- New Energy – Solar Tracker
- Infrastructure & Heavy Equipment - Bus/Truck/Trailer/Shipbuilding

Typical Applications

- Tracker Torque Tubes assembly
- Torque Tube – Bearing Housing Brackets
- Cross Bars to Torque Tube Assembly
- Blind Structural Assemblies
- HECV/Ground Transportation – Blind High-Strength Assemblies
- Shipbuilding – Cabin Construction
