Dear Valued Customer

Ref. Environmental Conformance – POP Rivets

To date our conformance to the Environmental & RoHS Standard for POP blind rivets are as follows:

Steel, stainless steel and copper components all meet the RoHS Directive (2011/65/EU) requirements and are Mercury free.

Our aluminium may contain lead at less than 0.4%, the maximum allowable percentage. The plating on our products that are zinc and clear, zinc and yellow and zinc and black are trivalent chromium. Oxide finishes, Xylan finishes, Anodized finishes and paints on rivet bodies all meet the RoHS requirements and do not contain reportable or restricted substances.

POP Blind rivets do not contain PFOS (Perflouroctane Sulfonates) or PFOS related substances.

Concerning the EU Directive March 3, 2009 Number 2009/251/CE rivets manufactured in our Hopkinsville Kentucky facility do not contain Dimethylfumerate.

Emhart Teknologies LLC, a business division of Stanley Engineered Fastening, is considered a world leader in the manufacturing of engineered fasteners. We are continually looking as new materials that are hitting the market as well as existing global products.

Should you need any further detail please do not hesitate to give me a call.

Yours sincerely
